	CLINICAL ANA	TOMY	OF CRANIAL NERVES							
1	Course Title:	CLINICA	L ANATOMY OF CRANIAL NERVES							
2	Course Code:	TIPIS321	18							
3	Type of Course:	Optional								
4	Level of Course:	First Cyc	le							
5	Year of Study:	3								
6	Semester:	5								
7	ECTS Credits Allocated:	3.00								
8	Theoretical (hour/week):	1.00								
9	Practice (hour/week):	0.00								
10	Laboratory (hour/week):	0								
11	Prerequisites:									
12	Language:	English								
13	Mode of Delivery:	Face to f	ace							
14	Course Coordinator:	Doç. Dr.	Alper VATANSEVER							
15	Course Lecturers:	Doç. Dr.	İlker Mustafa KAFA							
16	Contact information of the Course Coordinator:	avatanse Anatomi	ever@uludag.edu.tr, 295 38 15, Bursa Uludağ Üni. Tıp Fak.							
17	Website:									
18	Objective of the Course:	propertie	the students recognize the cranial nerves and their es; To gain a clinical perspective on cranial nerves together discussion of current literature information.							
19	Contribution of the Course to Professional Development: To gain the ability to follow current information and development about cranial nerves and to keep medical information up to dark									
20	Learning Outcomes:									
		1	Student will get the knowledge of the cranial nerves' structure, function and aim.							
		2	student can correlate the necessary connection about the functions of the cranial nerves by evaluating the clinical symptoms.							
		3	To be informed about current literature							
		4	Increase the ability of literature scanning							
		5	Student can complete academic discussions and express oneself by using Professional foreign language							
		6								
		7								
		8								
		9								
	Course Contact	10								
21	Course Content:		urae Contonti							
Week	Theoretical	C0	urse Content: Practice							
	General information about the crania	Lnervee	FIACUCE
