19	Contribution of the Course to Professional Development:	this course contribute the intellectual development of the student.
20	Learning Outcomes:	
	1	S/he learns to define concepts with paying attention to their historical backgrounds and opposite meanings.
	2	S/he comprehends how to build an argument by bringing together different disciplines and information.
	3	S/he gains understanding on theory generating and theory testing.
	4	S/he gains experience on how to display a systematic approach by taking concepts into consideration with reference to other concepts.
	5	S/he gains knowledge on creating counter-argument and defending her/his own argument against counter-arguments in a scientific way.
	6	S/he learns that theories are in close relations with practices; and, it is important to analyze political events without disregarding realities.
	7	S/he learns to detect deficiencies of theories and criticize them while applying them to different cultural practices.
	8	S/he gains ability to compare arguments of different authors/thinkers on similar issues in an analytical way.
	9	S/he gains ability to analyze a theory/approach/ideology with regards to contributions and reformulations of their followers.
	10	S/he understands that concepts are not not sytatic elements, they are rather dynamic ones.
