	RESIDENT DEMINSI	ON OF URBAN TRANSFORMATION								
1	Course Title:	RESIDENT DEMINSION OF URBAN TRANSFORMATION								
2	Course Code:	MIM5065								
3	Type of Course:	Optional								
4	Level of Course:	Second Cycle								
5	Year of Study:	1								
6	Semester:	1								
7	ECTS Credits Allocated:	6.00								
8	Theoretical (hour/week):	3.00								
9	Practice (hour/week):	0.00								
10	Laboratory (hour/week):	0								
11	Prerequisites:	-								
12	Language:	Turkish								
13	Mode of Delivery:	Face to face								
14	Course Coordinator:	Prof. Dr. MİRAY GÜR								
15	Course Lecturers:									
16	Contact information of the Course Coordinator:									
17	Website:									
18	Objective of the Course:	To discuss urban transformation by addressing the socio-cultural process, directing the policies and processes of urban sociology from the perspective of the concepts associated with the user specified size, and examining the assessment of different applications from Turkey and around the world. Evaluating the interaction of the physical environment produced in urban transformations with the user dimension in the transformation, developing suggestions for increasing the satisfaction and quality of life of users  To discuss urban transformation by addressing the socio-cultural process, directing the policies and processes of urban sociology from the perspective of the concepts associated with the user specified size, and examining the assessment of different applications from Turkey and around the world. Evaluating the interaction of the physical environment produced in urban transformations with the user dimension in the transformation, developing suggestions for increasing the satisfaction and quality of life of users								
19	Contribution of the Course to Professional Development:	To discuss urban transformation by addressing the socio-cultural process, directing the policies and processes of urban sociology from the perspective of the concepts associated with the user specified size, and examining the assessment of different applications from Turkey and around the world. Evaluating the interaction of the physical environment produced in urban transformations with the user dimension in the transformation, developing suggestions for increasing the satisfaction and quality of life of users								
20	Learning Outcomes:									
		To have in-depth knowledge of the theoretical dimension of urban transformation								

		2	Urban evaluation of and Turkey	the break point conver	sion in the world					
		3	Getting information about the political dimension of urban transformation							
		4	Discussion of different forms of urban transformation							
		5	Evaluation of urban transformation experience from the world and Turkey							
		6								
		7								
		8								
		9								
		10								
21	Course Content:									
		Co	urse Content:							
Week	Theoretical		Practice							
1	INTRODUCTION TO THE THEORE DIMENSION OF URBAN TRANSFORMATION	TICAL								
2	Article discussion on THE THEORE DIMENSION OF URBAN TRANSFORMATION	ΓICAL								
3	THE EVOLUTION OF URBAN TRANSFORMATION IN THE WORL	.D
