Measurement and Evaluation Techniques Used in the Course		Assessment includes a midterm exam (%40) and a final exam (%60). The exams could be either a classic paper-based exam or multiple-choice questions. Questions are structured to allow students to demonstrate that they have acquired appropriate knowledge and understanding. The way that students manage data, solve problems, evaluate ideas and the organisational skills they use to structure their written answers allows the standard of intellectual and transferable skills to be assessed. Assessment criteria for the programme take into account the level at which these skills have been achieved.
