YARN TEXTURING TECHNOLOGY									
1	Course Title:	YARN TE	EXTURING TECHNOLOGY						
2	Course Code:	TEK5550							
3	Type of Course:	Optional							
4	Level of Course:	Second (Cycle						
5	Year of Study:	1							
6	Semester:	2							
7	ECTS Credits Allocated:	6.00							
8	Theoretical (hour/week):	3.00							
9	Practice (hour/week):	0.00							
10	Laboratory (hour/week):	0							
11	Prerequisites:	None							
12	Language:	Turkish							
13	Mode of Delivery:	Face to f	ace						
14	Course Coordinator:	Doç. Dr.	SERPİL KORAL KOÇ						
15	Course Lecturers:								
16	Contact information of the Course Coordinator:	skoral@uludag.edu.tr / 0 224 2942065 Bursa Uludağ Üniversitesi, Mühendislik Fakültesi, Tekstil Mühendisliği Bölümü, Görükle-Bursa							
17	Website:								
18	Objective of the Course:	To understand texturing methods and properties of textured yarns							
19	Contribution of the Course to Professional Development:	In the textile industry, most of the synthetic filaments are used after being textured. For this reason, every textile engineer should know texturing methods and properties of textured yarns. In this respect, it is thought that this course will make an essential contribution to the professional development of the students.							
20	Learning Outcomes:								
		1	To understand the purpose of the texturing process.						
		2	To understand the texturing methods.						
		3	To understand the properties of the textured yarns and to be able to distinguish them.						
		4							
		5							
		6							
		7							
		8							
		9
