	NEMATOLOGY										
1	Course Title:	NEMATOLOGY									
2	Course Code:	BIO6503									
3	Type of Course:	Optional									
4	Level of Course:	Third Cycle									
5	Year of Study:	1									
6	Semester:	1									
7	ECTS Credits Allocated:	5.00									
8	Theoretical (hour/week):	3.00									
9	Practice (hour/week):	0.00									
10	Laboratory (hour/week):	0									
11	Prerequisites:	-									
12	Language:	Turkish									
13	Mode of Delivery:	Face to face									
14	Course Coordinator:	Prof. Dr. Hikmet Sami Yıldırımhan									
15	Course Lecturers:	-									
16	Contact information of the Course Coordinator:	Prof. Dr. Hikmet Sami YILDIRIMHAN yhikmet@uludag.edu.tr +90 224 2941790 Uludag University, Faculty of Arts and Sience, Department of Biology, 16059, Nilüfer-Bursa									
17	Website:										
18	Objective of the Course:	t is aimed that the basic knowledges about the description of Nematoda phylum and the principals of classification, morphology, characteristcs of reproduction, selection of host									
19	Contribution of the Course to Professional Development:										
20	Learning Outcomes:		_								
		1	They have knowledge of parasitism, ectoparasite and endoparasite concepts.								
		2	They have knowledge about life style of parasites and their intermediate hosts, methods which are used identification.								
		3	They know formation mechanism of illnesses by parasite.								
		4	They know transmission ways of infections.								
		5	They discuss evolutionary effects of parasitism.								
		6	They have knowledge of helminth identification.								
		7	They have knowledge of methods which are used parasite identification.								
		8	They know general characteristics of Phylum: Nemathelminthes. They comprehend identification, morphologic, systematic and parasitic caharacteristics of parasite in this phylum.								
		9	They identify interactions between parasite and host.								
		10									
21	Course Content:	Course Content:									
		Course Content:									
Week	Theoretical Practice										

1	The students learn style of the course programme. The students are ilumina about final exams.								
2	Symbiotic life styles in organisms are explained.)							
3	It is given knowledge about parasitisi ectoparasite and endoparasite conce								
4	Life styles of parasites and their inter hosts, methods which are used ident	mediate							
5	The interactions between host and pa	arasite							
6	Individual and evolutive effects of particular	rasitism.							
7	General characteristics of Phylum: Nemathelminthes, classification.								
8	Life stages, larvae and eggs of Phylu Nemathelminthes.	ım:							
9	Parasitism and life cycles of Trichine spiralis.	lla							
10	Parasitism and life cycles of Ascaris lumbricoides.								
11	Parasitism and life cycles of Dracula medinensis.								
12	Parasitism and life cycles of Wuchere bancrofti	eria							
13	Medical importance of parasites in Pl Nemathelminthes.	hylum:
